Market - Specific Partnership Quote

We partner selectively and we invest with them: co-funded local FOC support for launch and sampling, and commercial terms built into channels, launch plan and opening order rather than a one-size-fits-all. Tell us how you plan to build Lepique, and we'll shape the proposition.

By day, skin is exposed to UV, pollution, dry air and makeup, hence defense comes first. By night, the focus shifts to recovery. Guided by its circadian rhythm, skin enters its most active phase of renewal and repair. That's why every Lepique formula is developed around overnight recovery and chosen by those who know their skin works hardest while they sleep.
